## Investment Objective

Seeks to achieve a high total return consistent with reasonable risk, by investing primarily in a diversified, multinational portfolio of equity securities. Investments in the US will not exceed 5% of the Portfolio. Foreign investments involve greater risks than U.S. investments, including political and economic risks and the risk of currency fluctuations. You could lose money on your investment in the Fund, or the Fund could underperform for any of the following reasons: the stock market goes down, the individual stocks in the Fund do not perform as well as expected, and/or the Fund's portfolio management practices might not work to achieve their desired result.

## Investment Strategy

Acadian uses a proprietary, disciplined, bottom-up stock selection process to evaluate developed and emerging-market stocks and identify those with the best potential for out-performance, while controlling portfolio risk relative to the MSCI EAFE IMI Index. Based on a wide range of quantitative data, Acadian's multi-factor model assesses individual stocks and compares opportunities across countries and sectors. Investments in the US will not exceed 5% of the portfolio.

**Expense Ratio: 1.68%.** Calvert voluntarily waives 0.025% of its annual advisory fee on assets in excess of \$250 million up to \$500 million and an additional 0.05% on assets in excess of \$500 million, in each case based on average daily net assets. Calvert may cease this waiver at any time. Net of current expense waiver/reimbursement and offsets, the expense of Class A for the Fund was 1.63% for the fiscal year ended September 20, 2008. **Performance data quoted already reflects deduction of fund operating expenses. Total return represents past performance, which is no guarantee of future results. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance data quoted. Visit [www.calvert.com](http://www.calvert.com) to obtain performance data current to the most recent month-end.** Effective March 13, 2006, Acadian Asset Management commenced as sub-advisor for this Fund. Performance data prior to March 13, 2006 represent that of the previous manager, and not that of Acadian Asset Management. Indices reflect no deductions for sales charges or management expenses. ## Investment Objective

Seeks to provide long-term capital appreciation by investing primarily in non-U.S. small-cap and mid-cap stocks in both developed countries and emerging markets. The Fund primarily invests in developed countries but may invest up to 20% of its assets in emerging markets. Foreign investments involve greater risks than U.S. investments, including political and economic risks and the risk of currency fluctuations. Prices of small-cap and mid-cap stocks may respond to market activity differently from and can be more volatile than those of larger, more established companies.

## Investment Strategy

London-based F&C Management Limited uses a primarily bottom-up strategy focused on fundamental analysis of a broad universe of small- and mid-cap stocks across all geographic regions. Attractive companies are identified through a combination of valuation and growth metrics that seeks to identify companies with a sustainable competitive advantage.
